

AVEC '26 Corporate Exhibition Application Guidelines

AVEC was launched to identify future directions in vehicle motion control and component technologies, and to provide a forum for exchanging information on vehicle motion control technologies. The first symposium was organized by the then Vehicle Dynamics Technical Committee of the Society of Automotive Engineers of Japan (JSAE) and held in Yokohama in 1992. Since then, AVEC has been held biennially, alternating between Japan and international venues. The 17th symposium, AVEC '26, will be held in 2026 at the Tsukuba International Congress Center in Tsukuba, Ibaraki Prefecture. We expect approximately 250 attendees in total.

At AVEC '26, to allow companies to promote their products and technological capabilities, the exhibition area for vehicles and other exhibits featuring advanced technologies will be set up on the same floor as the main venue. This area will also be used for coffee breaks. We sincerely hope you will understand the purpose of this event and participate. Please note that we may not be able to accept all submissions if the number of applications exceeds our capacity.

Overview	○ Venue Tsukuba International Congress Center 1F, Multi-purpose Hall Notes: - Booth placement will be determined by the secretariat. - Maximum number of exhibition booths: 10 ○ Exhibition period September 8 (Tue.), 11:00 am – September 10 (Thu.), 5:00 pm Note: Move-in/setup: September 8, 10:00 am – 11:00 am; Dismantling/move-out: September 10, after 5:00 pm ○ Official language English
